

# Presenting Washington MyChart

Washington MyChart is an online resource for patients in Washington Hospital Healthcare System that we are beginning to roll out in certain areas. If your physician is a participating provider, you can create a personal account that is protected by a password, giving you secure access to important health information and resources. Accessible from your mobile or desktop device, you can view your test results, prescriptions, allergies, immunizations, and other limited portions of your health record.

You can also send a message to your participating provider's office, schedule an appointment, or request a referral to another participating provider.

Contact your  
doctor's office  
today to register!

## **Washington MyChart includes:**

### **Your Health Profile**

---

#### **Health Summary**

See a quick overview of your medical records, including your current health issues, allergies, immunizations, medications, and preventive care measures.

#### **Medical History**

Review your medical, surgical, and social histories, including alcohol and tobacco use. Authorized family members can also view documentation regarding certain health issues in your account.

#### **Billing**

Access your accounts to view your total outstanding balance. Any outstanding accounts will display real-time information related to those accounts.

### **Wellness**

---

#### **Medications**

View your current medications along with pertinent information for each medication, such as the prescribed dosage and the name of the participating provider who placed the order.

#### **Allergies**

See a list of your allergies and the reactions, along with the date noted. This section also includes any substance intolerances and interactions you might have.

#### **Immunizations**

Review the types and dates of immunizations you have received.

#### **Test Results**

Check your laboratory tests and results, the participating provider who authorized each test, and the status of any test results. Instead of waiting for a letter or phone call from your provider, you can see your lab results as soon as the results are posted to MyChart.

### **Communication Tools**

---

#### **Message Center**

Just like the interface on your personal email, an inbox and sent folder display messages between you and a participating physician's office.

#### **Request Rx Refill**

Send secure messages to the provider who authorized the medication to ask for prescription renewals.

#### **Appointments**

Schedule an appointment with your primary care provider, or request an appointment from any other participating provider. View future and past appointments, along with the time, location and provider involved.

Call your participating provider to register or ask questions. Go to [whhs.com/mychart](http://whhs.com/mychart) to learn more.
