Dates and times are subject to change

The **Washington On Wheels Mobile Health Clinic (WOW)** is a mobile medical unit providing quality health care services primarily to uninsured and underserved district residents. WOW brings Washington Hospital's commitment to patient-first care to clients throughout Southern Alameda County, including Fremont, Newark and Union City.

The intent is to discover undiagnosed conditions before they become serious and to treat chronic conditions before they turn into life-threatening emergencies.

Some screenings are free and other services are provided on a sliding scale from free to low cost. For more information on the mobile health clinic, please call **(510) 818-7803**.
